A service available to you,

your friends, your family and
your community!

Services available to you...

PEACE can help you build and maintain strong and healthy relationships in all that you do.

PEACE will provide you with all the support that you need to achieve goals for you, your family and your community.

For Example:

- Health promotion
- Help to visit specialist services (e.g. doctors and nurses)
- Follow ups and;
- Advocacy.

If we do not speak your language we will use an interpreter - face to face or over the phone.

We will do all we can to ensure you feel safe all the time!

Services available to your family & friends...

We always encourage family and friends to seek help, even if the problem is not directly related to them.

Clients can ask for their family member or friend to be (or not to be) involved in the decisions about your health and relationships.

Family and/or friends can seek help independently from the person who is engaging PEACE Services but we will never talk about any one person without their consent - not even to a family member!

When visiting us, you can:

- Experience meaningful and appropriate help and/or support
- Find useful information about health issues and other available services
- Get the support you need to assist in dealing with the impact that other people have on your life
- Learn about how to strengthen your relationships.
